As this is a new software, it is strongly recommended that the trackman app is downloaded to your mobile device and an account be created for all players. This is quite simple to do and will fast track logging in with a QR-Code via the App once ready for play. Track stats, resume rounds and compare shot analysis, view difficulty of courses and course list are also key benefits of this cloud based software. Please also feel free to visit www.trackman.com for extended info and videos about this industry leading technology.

- The app is available for free on all phones and is called "TrackMan Golf". We strongly recommend that each of you download this app and create a profile prior to your first round for ease of use with the new software.

Again, we are very pleased and excited to be offering Trackman golf to the Members of the Brockville CC. Any questions please reach out to the simgolf@brockvillecountryclub.com email and someone will respond as soon as possible. Welcome to the 2024 indoor golf season !!

Please note that we will be closed from the 23rd of Dec to the 2nd of Jan for Holidays.

Happy Holidays Everyone !
